

# Danfoss Learning. Your **gateway to knowledge** - Anytime, from anywhere

If you are involved with specifying, selecting, maintaining, applying or installing Danfoss industrial components then the more you know about our products, solutions, and services then the better equipped you are to ensure that knowledge is used to it's maximum effect.

## **SAVING YOU TIME, MAKING YOU MONEY**

Having the latest technical information helps you select the right product for an application or give better advice to your customers.

Better service leads to bigger sales and higher levels of customer satisfaction.

In other words, the more you learn, the more you can earn.

To help you achieve this competence Danfoss Industrial Automation now offers a number of e-Lessons covering;

- Valve & coil theory
- Direct operated solenoid valves
- Direct and indirect servo operated solenoid valves
- Coils
- Pneumatic valves
- Thermostatic valves
- Pressure switches
- Temperature switches
- Switch theory
